# Artificial *plants*

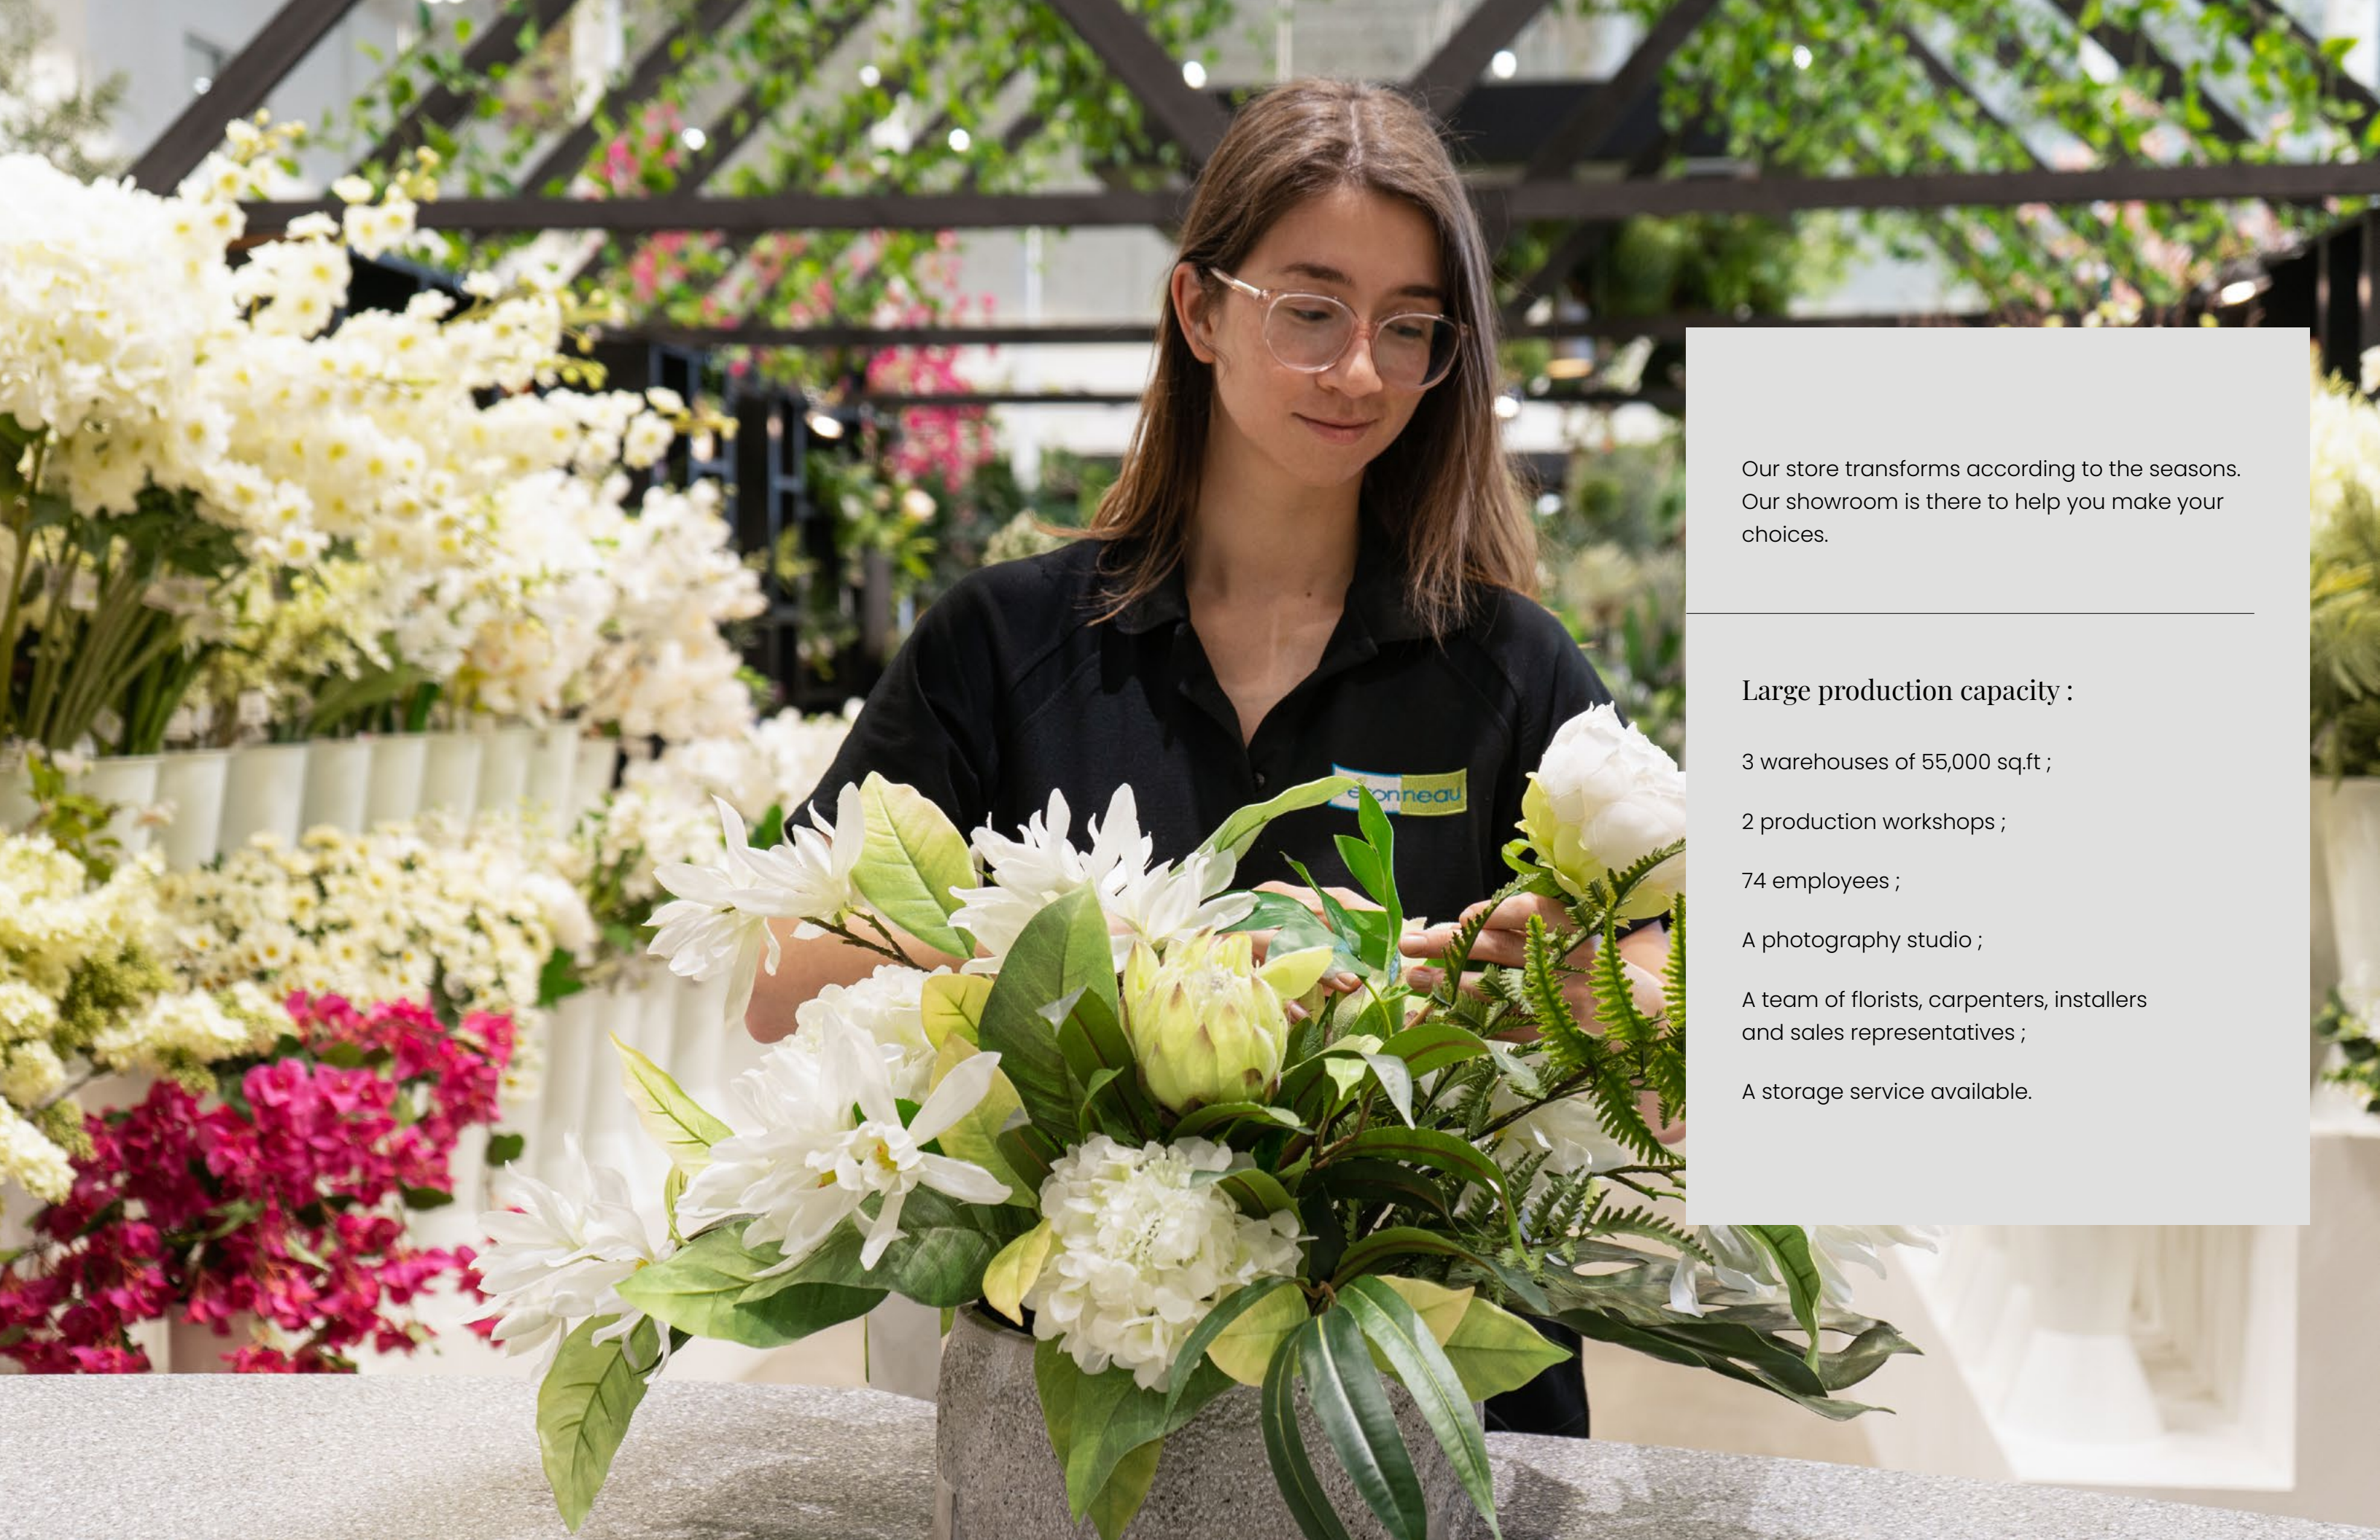

our specialty for over 30 years

Décors Véronneau is a Quebec-based business that offers a large selection of artificial plants and flowers, custom floral arrangements, and green walls that can be scaled for large or small projects. The company is renowned for its artificial trees, made from the trunk of real trees, with artificial foliage.

Our commercial design team works in close collaboration with the production team to create custom designs that bring our clients' vision to life in an exceptional way – whatever the space or season!

Our store transforms according to the seasons.  
Our showroom is there to help you make your  
choices.

#### Large production capacity :

3 warehouses of 55,000 sq.ft ;

2 production workshops ;

74 employees ;

A photography studio ;

A team of florists, carpenters, installers  
and sales representatives ;

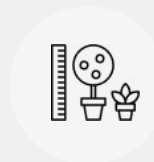

A storage service available.

## Turnkey *projects*

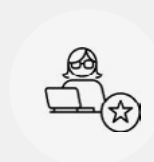

Whether for an office, apartment complex, showroom or restaurant terrace, our experienced design team is there to help you create any type of commercial spaces.

## Advantages *of the artificial*

### Choose peace of mind

With artificial plants, there are only benefits. Right up until the very end, the plants maintain their proper size! – because they don't need particular care, lighting, or weekly watering, they can be installed in places that are hard to reach. Furthermore, they are safe for animals, devoid of mould and insects, and always have their best, lush, green appearance.

# Commercial design *team*

Our team of motivated and skilled sales representatives, approaches each task with a cooperative mindset. Your ideas can become reality thanks to our experience and dedication!

## Activity sectors :

Offices and common areas ;  
Shops and hotels ;  
Restaurants ;  
Retirement homes  
and complexes ;

Special events ;  
Grocery stores ;  
Municipalities and urban parks ;  
And much more!

## High-grade *products*

for all types of commercial spaces

1. Indoor artificial plants
2. Outdoor artificial plants and trellises
3. Plant walls and hanging greenery  
Embedded logos
4. Handmade trees from real trunks
5. Artificial flowers and arrangements
6. Urban furniture – Pots and planters
7. Christmas decorations

# Artificial plants *for indoor use*

---

Some achievements

Our team of buyers travels around the world to find the best quality artificial plants and flowers, while following the latest market trends and innovations.

# Artificial plants and trellises *for outdoor use*

---

Some achievements

Did you know that some artificial plants are specifically designed

to withstand the sun's rays? Our collection includes many models available in stock!

We offer a wide range of artificial plants and flowers, as well as trellis panels designed for outdoor use. **They are treated to prevent discoloration** caused by UV rays, making them excellent choices for a sunny terrace.

Find out more about this solution and the available warranties.

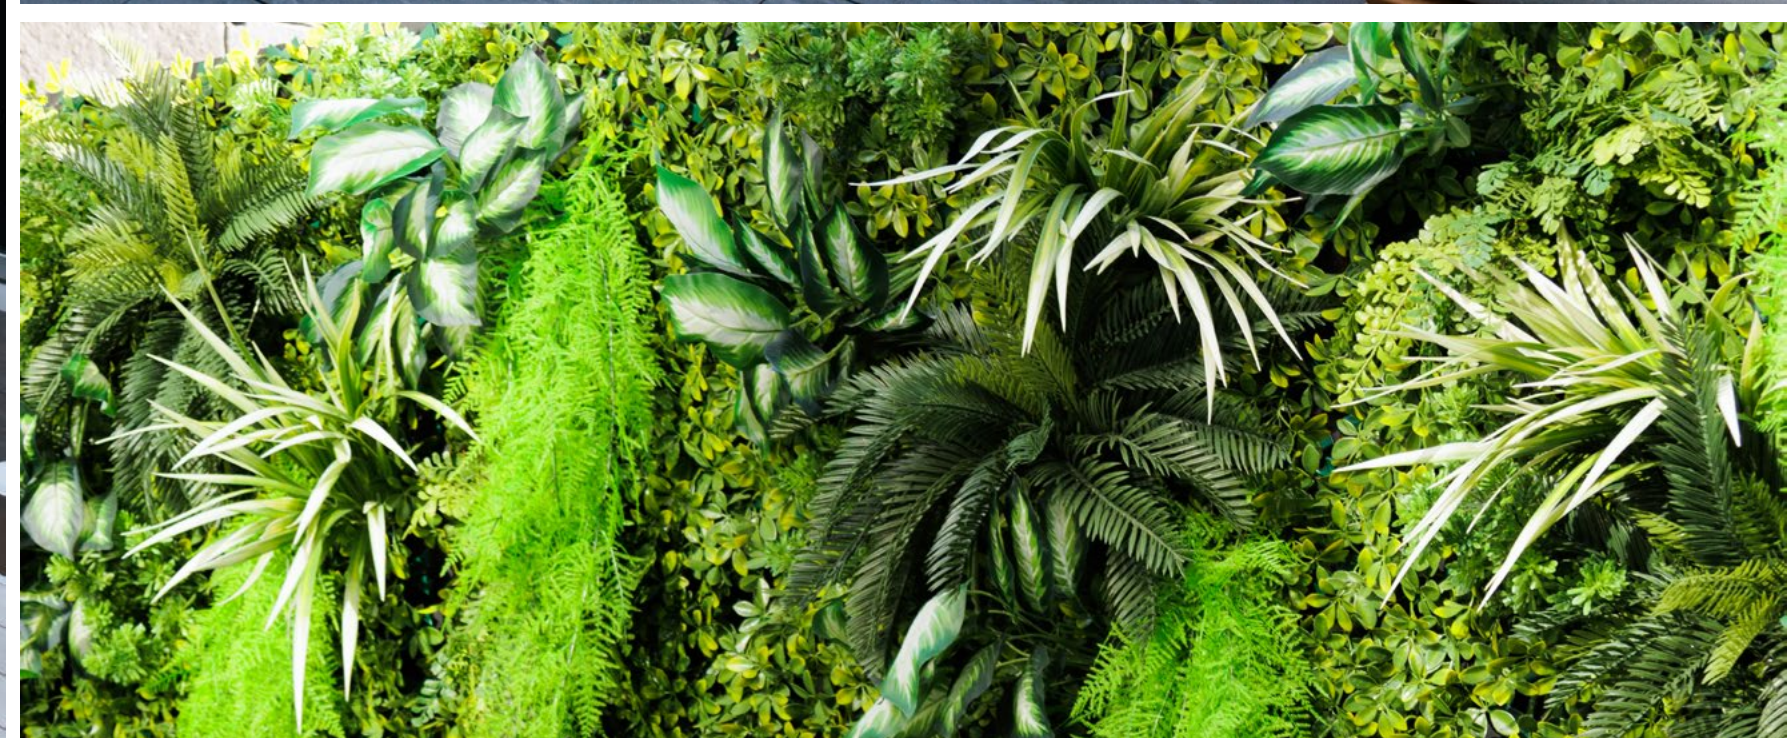

We create breathtaking spaces, each uniquely craft to our clients' visions.

-  Discover our expandable plant trellises

# Artificial plant walls *and hanging greenery*

Some achievements

Our plant walls are handmade in our own workshop located in Laval.

Our artificial plant frames can cover vertical or horizontal walls, ceilings and small spaces. They can also be made with wood inserts to create modern geometric designs.

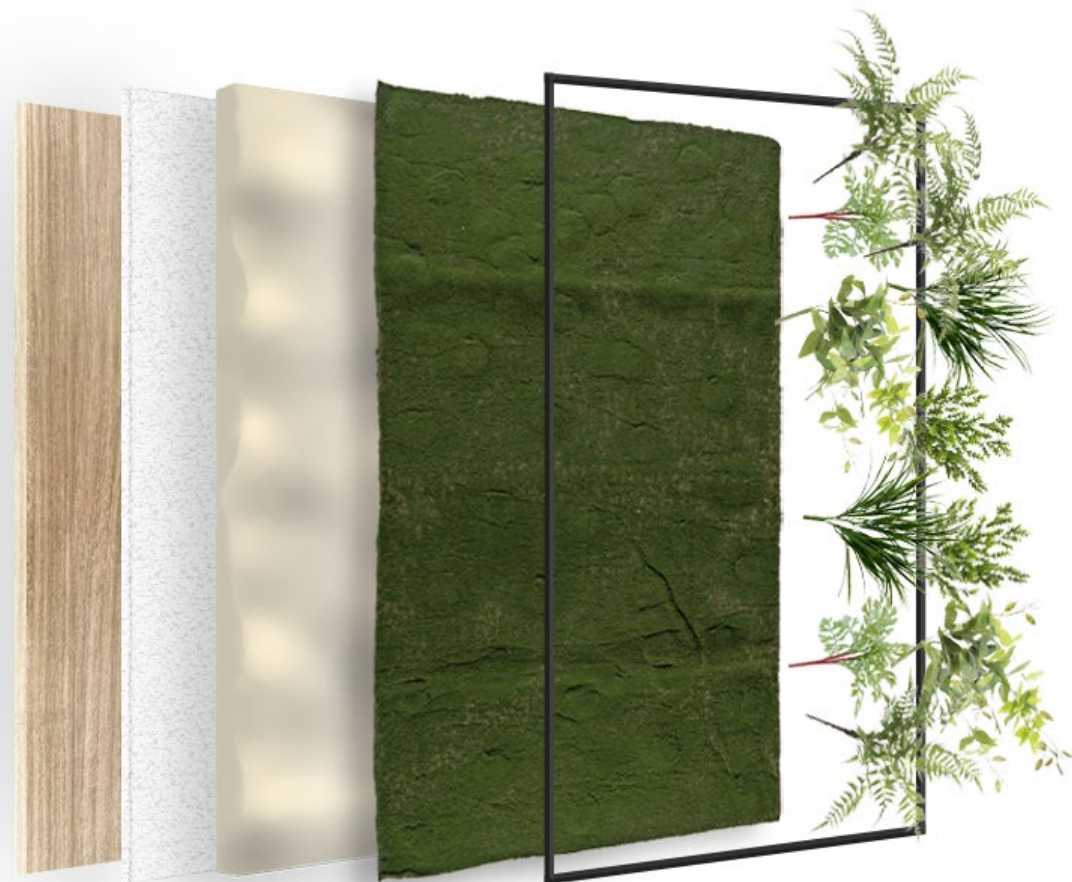

## A quick and easy installation

Since the plant wall is manufactured on prefabricated panels in our workshop, installation is fast and simple.

The panels are attached to the wall with anchors located at the back. They are then camouflaged within the foliage.

*Download the plant wall brochure to get more details on how we make them, the pricing, installation and maintenance.*

We offer many types of plant walls covering all budgets and needs :

Trellis wall (most affordable)

Boxwood wall (classic and plain)

Textured moss wall

Entry-level plant wall

High-end plant wall

Fire-retardant plant wall

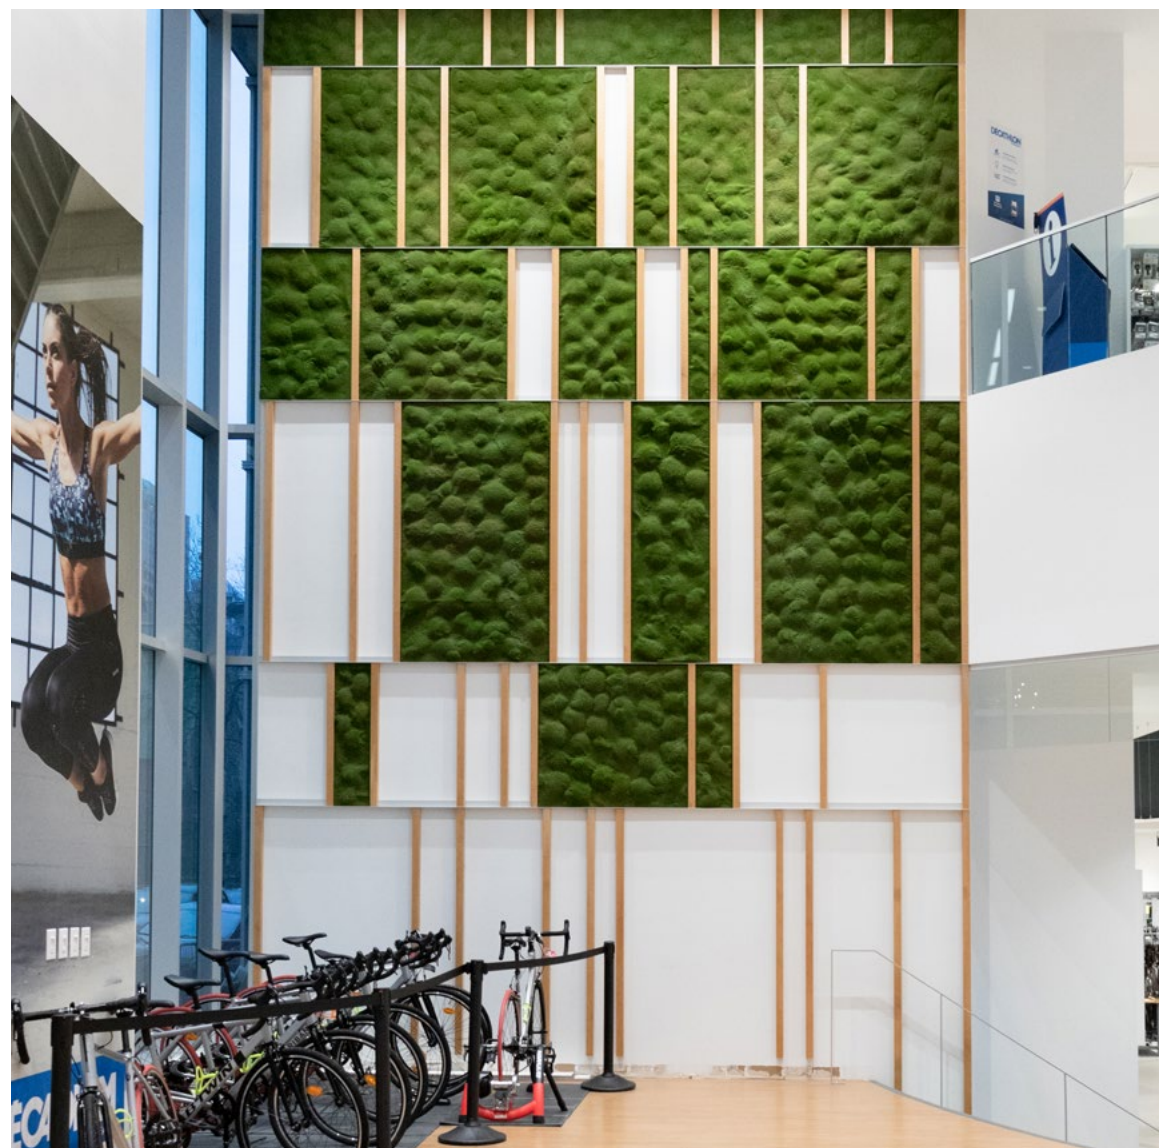

Greenery is the ideal solution to enhance a space that lacks the right spots for natural plants.

# Embedded logos *in your plant wall*

Some achievements and inspirations

## Your corporate image displayed on a customized plant wall

We can now integrate your corporate identity or logo into a custom plant wall, offering a unique composition to display your company's name.

Most commonly used sign materials :

PVC – ACRYLIC – ALUMINUM – NEON – LED NEON

## For more informations on this service :

-  Find out more about the different options we offer
-  Request a free quote to have some details on our pricing

# Custom *handmade trees*

Some achievements

All our trees are handcrafted in our own workshop from natural tree trunks. Our team of specialists integrates each branch individually to create the most realistic trees possible.

Whether you need a 14ft olive tree or a 30ft ficus, all our models can be made to your exact specifications.

### Two-step installation

The first step in the manufacture of our handmade trees is design and assembly in the workshop by our craftsmen. The rest of the work takes place at the project's location, to create a customized result.

Their creation is a meticulous process that takes place in several steps :

*Custom tree with metal base :*

- 1 In our workshop, our team adds the main trunk inside the metal base tube to which several other branches (often twisted) are added to conceal it ;
- 2 Medium and smaller branches are then put in place. For larger trees, the rest of the fabrication can be carried out at the customer's location for a realistic effect ;
- 3 Holes are drilled for adding foliage stems, which are also in place for added strength ;
- 4 Our cleaning product is sprayed all over the tree to prevent dust from building up.

*Download the handmade tree brochure for more details on the manufacturing, installation and maintenance.*

For more informations on our handmade trees :

# Urban furniture *Pots and planters*

Some achievements

While design is essential to us, we also provide high-quality urban furniture, made of durable products that require no upkeep.

We offer a wide choice  
of urban furniture :

- Park benches ;
- Outdoor chairs;
- Picnic tables;
- Waste and recycling bins;
- Swings and rocking chairs ;
- Flower boxes ;
- Umbrellas and bases ;
- And much more!

# Christmas *decorations*

Some achievements

Make your business shine bright! From oversized Christmas trees to custom-made decorations, be inspired by our indoor and outdoor Christmas decors.

Many of our customers have been using our services for several years now for custom Christmas decorations.

Our team of experts will work with you to create the decor you're looking for according to your specifications, schedule and budget.

We also offer a storage service for your seasonal decorations.

# Maintenance *of artificial plants*

Some achievements

### Clean

We recommend spraying your artificial plants with our plant cleaner as soon as you receive them. It will brighten up the foliage and prevent the dust from building up. We recommend using a duster or hair dryer to remove dust accumulation every season. For plant walls and hanging greenery, we recommend cleaning from top to bottom as described above.

### Protect

Synthetic plants obviously don't need light to stay beautiful. They may, however, discolor if exposed to sunlight and if not properly protected or guaranteed against discoloration.

If you want to place a faux plant near a window where the sun is going through, we recommend to spray a UV protector. This action can be carried out by our team during installation. Thereafter, simply spray again at the change of season.

Don't forget to store your outdoor artificial plants and flowers for winter.

### For more informations on maintenance :

-  Shop our care products
-  Discover more

Each project is custom made  
according to your needs and vision.

The only limit to what we can do  
is *your imagination*.
